**FOR IMMEDIATE RELEASE**

**ATON RESOURCES ANNOUNCES EXTENSION OF NON-BROKERED PRIVATE PLACEMENT OF UP TO \$1.0 MILLION**

**December 1, 2017 (Vancouver, British Columbia) Aton Resources Inc. (TSX-V: AAN)** (the “Corporation” or “Aton Resources”) today announces that, further to its press releases dated September 27, 2017, and November 14, 2017, it intends to extend its non-brokered private placement offering of up to 25,000,000 common shares (the “Common Shares”) at a price of \$0.04 per Share (the “Private Placement”), for total gross proceeds of up to \$1,000,000. The closing of the Offering is expected to occur on or about December 22, 2017, and is subject to TSXV approval. The net proceeds from the Offering will be used to fund continued exploration and development activities at Aton’s 100% owned Abu Marawat concession, located in Egypt, including advancing the regional drilling program, geophysical work along the Waayrah-Miranda VMS trend, metallurgical test work required to assess recoveries of the established resources at Hamama West and Abu Marawat, and for working capital purposes.

Participation in the Placement is open to all shareholders who held the Corporation’s common shares on September 26, 2017 (the “Record Date”). Each purchaser of Shares will be required to complete a subscription agreement, which confirms, among other things, the availability of an exemption from the prospectus requirements of applicable securities laws in respect of the sale of Shares to such purchaser. Eligible shareholders wishing to participate in the Placement are invited to contact the Corporation to obtain a subscription agreement. In the event of over-subscription, the Corporation will determine allocations between shareholders at its sole discretion. Persons who did not hold common shares of the Corporation on the Record Date may also participate in the Placement.

*“Following on from our game-changing announcement of filing with the Egyptian Mineral Resources Authority our intention to declare a commercial discovery at Hamama, we want all investors to have the ability to participate in our financing.” Stated Mark Campbell President and CEO. “The path to achieving one of our goals, obtaining a 20-year mining license at Hamama, along with our exploration extension to be able to develop many more targets at our 738 SQ KM Abu Marawat Concession, is a very exciting development for Aton and our shareholders, and we want to give others the opportunity to share in this historic and exciting development.”*

**Additional Terms**

All securities issued pursuant to the Private Placement will be subject to a four-month hold period from the date of issuance under applicable Canadian securities laws. The Corporation may pay certain finders fees on certain of the gross proceeds raised from the sales of Shares pursuant to the Private Placement,

yet to be determined and subject to the approval of the TSXV.

This news release does not constitute an offer to sell or a solicitation of an offer to sell any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

**About Aton Resources Inc.:**

Aton Resources Inc. (AAN: TSX-V) is focused on its 100% owned Abu Marawat concession, located in Egypt's Arabian-Nubian Shield, approximately 400km north of Centamin's Sukari gold mine. Aton has identified a 40km long gold trend at Abu Marawat, anchored by the Hamama project in the west and the Abu Marawat gold deposit in the east. In addition to the Hamama project and the Abu Marawat gold deposit, the trend contains numerous gold exploration targets, including two historic gold mines. Abu Marawat is over 738 sq. km in size and is located in an area of excellent infrastructure, a four-lane highway, railway line, a 220kV power line and a water pipeline are in close proximity.
